## AIR KNIFE EXTRA GM02S

Air Knives extra available with 2, 4 or 6 nozzles, hard anodized aluminum or stainless steel 316L. The blowing force it is controlled by the thickness of the internal shims, it is enough to take shims out to reduce the blowing force or adjust it. Also air consumption and sound level can be adjusted very easily. Replace drilled pipes reducing dramatically noise level and air consumption. The nozzles can be opened easy for cleaning and maintenance contrary to competition's nozzles that most of the time get clogged. The shims inside the nozzles are made in stainless steel and provide a high resistance to mechanical wear. The standard nozzle used for these air knives it is with 0.28" gap. Custom made air knives are available on request at no additional cost.
